

LundeeDoodles Puppy Health Guarantee & Adoption Agreement

This agreement is made between **LundeeDoodles** (the “Breeder”) and:

Family/Buyer Name: _____

Date: _____

Puppy Information

Name/Microchip #: _____

Birthdate: _____

Gender: _____

Color: _____

Sire: _____

Dam: _____

Our Promise to You

At LundeeDoodles, every puppy is raised with love, care, and intention. We do everything we can to set our puppies — and their new families — up for a healthy, happy life together.

1. Healthy Start

- Your puppy will leave our home with:
 - Age-appropriate vaccinations
 - Preventative deworming
 - Subcutaneous microchip
 - Veterinary health check & certificate
- While we do our best to prevent them, common puppy parasites can occasionally appear. These are not unusual in young puppies and are treatable.

2. 2-Year Genetic Health Guarantee

- We guarantee your puppy against *life-inhibiting genetic conditions* for **two years** from the date of adoption.
- If such a condition is diagnosed by a licensed veterinarian, you may choose:
 - A **replacement puppy** from a future litter (equal or lesser value),
 - OR a **refund of 50% of the original purchase price**.
- You are **not required to return your puppy** in order to exercise this guarantee.
- Replacement puppies are based on availability — timing, gender, and color cannot be guaranteed.

3. What's Not Covered

- Conditions not related to genetics such as: viruses, infections, parasites (including Giardia or Coccidia), hernias, stress-related illness, injuries, or issues caused by diet or environment.
 - Everyday vet care and costs are the responsibility of the family.
-

Your Promise to Your Puppy

We ask that families make the following commitments to ensure their puppy thrives:

1. Veterinary Care

- Take your puppy to a licensed veterinarian within **3 business days** of adoption for a wellness exam.
- Keep up with annual wellness checks, vaccinations, preventatives, and immediate care if your puppy is sick or injured.

2. Everyday Care

- Provide safe, indoor housing and lots of love.

- Feed a high-quality, balanced diet.
- Maintain a healthy weight.
- Avoid strenuous, forced exercise until your puppy is at least 12 months old, to protect growing joints.

3. Training & Socialization

- Basic obedience training within the first year is highly encouraged.
- Positive reinforcement, patience, and consistency are the key to raising a confident, happy doodle.

4. If Life Changes

- If at any time you are unable to keep your puppy, please contact us right away. Together we'll ensure a safe, loving new home.
- Puppies from our program may **never** be placed in a shelter, rescue, or lab.

5. Spay/Neuter Agreement

- Puppies are sold as companions only, without breeding rights.
- Spay/neuter (or approved gonad-sparing procedure) must be completed by **18 months of age**.
- Proof from your veterinarian must be sent to us.

Celebrating Our Doodles

We love staying in touch and watching our puppies grow! By signing this agreement, you give LundeeDoodles permission to share any photos of your doodle (that you post on social media) on our website or pages to celebrate them as part of our extended doodle family.

Acknowledgment

By signing below, both parties agree to the terms of this adoption agreement.
