

THE EDGE SERIES | 55" EDGE

ONE CABINET. TWO MOUNTING METHODS.

THE ULTIMATE VIDEO WALL REPLACEMENT

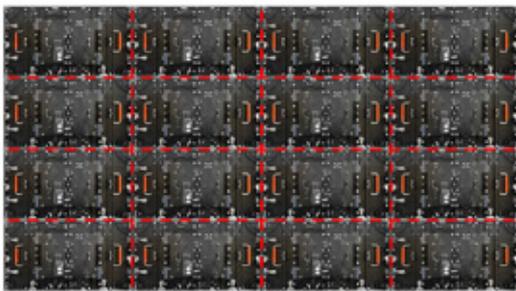

Designed by Installers, for Installers.

The 55" EDGE has been designed as a cost effective, more energy efficient, longer lasting alternative to LCD video wall technology.

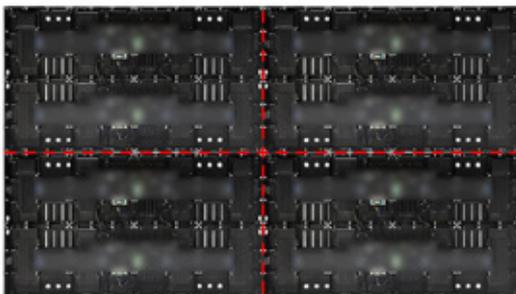

It was the world's FIRST and largest single die-cast cabinet in the same size as the popular 55" LCD video wall panels.

Reduced Cabinets = Reduced Hassle

Standard LED Cabinets 4x4

Simple to Specify

Designed to replace 55" flat panels, specifying the 55" EDGE is quick and easy.

Quick & Easy Install

Mount directly on to the wall, or on to existing video wall VESA brackets. Cabinet alignment is a breeze due to reduced number of components.

GOB (Glue on Board)*

Upgrade your modules with a GOB finish, offering improved pixel durability in heavy footfall areas.

Reduced Carbon Footprint

The 55" EDGE stands out as a significantly more sustainable display option, utilising 75% fewer internal components and raw materials compared to the standard 600mm x 337.5mm cabinet. This efficiency makes it a leading choice for environmentally conscious consumers looking to minimise their carbon footprint.

Modular Formation

Lasting Performance
≥100,000 Hours

Slim Design - 58mm

Easy Maintenance

GOB Optional Upgrade*

Lightweight - up to 4kg lighter per cabinet vs LCD

16:9 Aspect Ratio

Shock Resistance Technology

180° Viewing Angles

Fixed Resolutions & Custom Sizes

Control Room

Hospitality

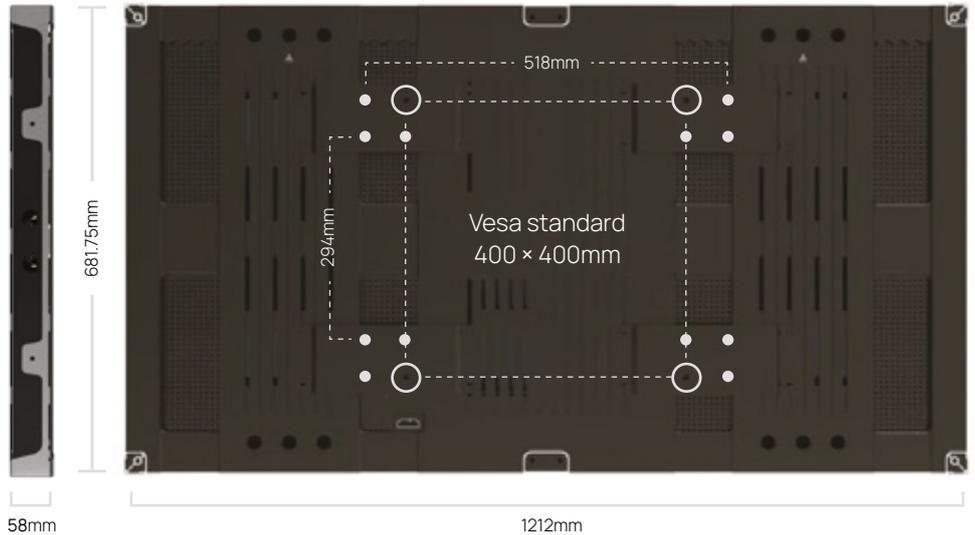

Two mounting methods

Having the freedom to attach a LED display to an existing mounting solution can make a big difference. The industry standard VESA or wall mounting options enables the EDGE platform to be attached in a matter of seconds for quick and easy mounting.

Wall mounts

SPECIFICATIONS

SMD				
Pixel Pitch (mm)	1.2	1.5	1.8	2.5
Cabinet Size (W+H+D)	1212x681.75x58mm 47.72x26.84x2.28in			
Cabinet Weight (kg/lbs)	15 / 33			
Cabinet Resolution (W+H)	960x540	768x432	640x360	480x270
Aspect Ratio	16:9			
Brightness	≥600 nits			
Refresh Rate	≥3840Hz			
Colour Temperature (K)	2,500 ~ 9,000			
Max Power Consumption (W/m ² / W/ft ²)	≤570/52.95	≤510/47.38	≤450/41.81	≤390/36.23
Average Power Consumption (W/m ² / W/ft ²)	≤230/21.37	≤200/18.58	≤180/16.72	≤160/14.86
Working Voltage	AC100 ~ 240V (50~60Hz)			
Lifetime Hours	≥100,000Hrs			
Operating Temperature (°C / °F)	-10 ~ +60 / +14 ~ +140			
Storage Temp (°C / °F)	-25 ~ +60 / -13 ~ +140			
Operating Humidity	10% ~ 90%RH			

*All data contained is subject to change based on project requirements.
*GOB is an optional upgrade on all SMD and Flip Chip displays.
