

THE CUBE

High-impact LED display for
indoor and outdoor signage

Dynamic Branding

The Cube is a fully customizable, five-sided LED display designed for dynamic branding and advertising applications. Ideal for retail stores, shopping centres, showrooms, and corporate environments, the LED Cube delivers seamless, animated content across multiple sides – creating attention-grabbing visuals from every viewing angle.

Custom sizes available

Available in standard configurations including with bespoke sizing available on request to suit specific installation needs.

Flexible installation

The LED Cube can be wall-mounted, ceiling-mounted, or floor-mounted, offering maximum flexibility for different environments. Precision screw-mounted LED modules ensure a secure fit and perfectly flat surface alignment across each face.

Easy Maintenance

Quick access via removable mount plate

Ultra-flat surface

Precision-screwed modules for perfect alignment

Indoor & Outdoor

Optimised brightness for every environment

Smooth Playback

Smooth 3840Hz playback for flawless visuals

Simple Content Management:

Laptop

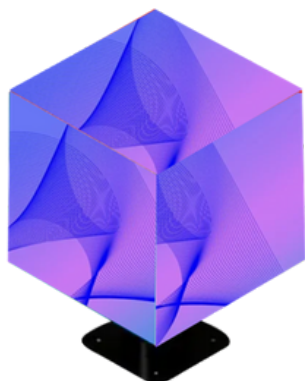

Mobile Phone

PC

USB Drive

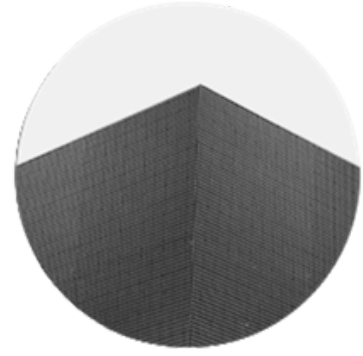

The LED Cube supports WiFi and 4G remote control, allowing content updates via PC, USB drive, laptop, or mobile phone. Advertisements and animations can be changed in real-time, making it ideal for fast-moving retail and event environments.
