

Create LED displays that turn space into
experiences, building environments that
communicate your brand and messages

LEDstudio

Experience Centre

Welcome to The Studio

The future of LED.
Now open in Basingstoke.

Step into the UK's largest LED
Experience Centre - a space built
to inspire, connect and reimagine
what's possible with display
technology.

Here, you don't just see LED. You
experience it.

Take the Wheel in our Racing Simulator

Test your skills on our racing simulator and see how you measure up on the customer leaderboard.

Set the fastest lap of the quarter and you'll win tickets to an exclusive track day experience.

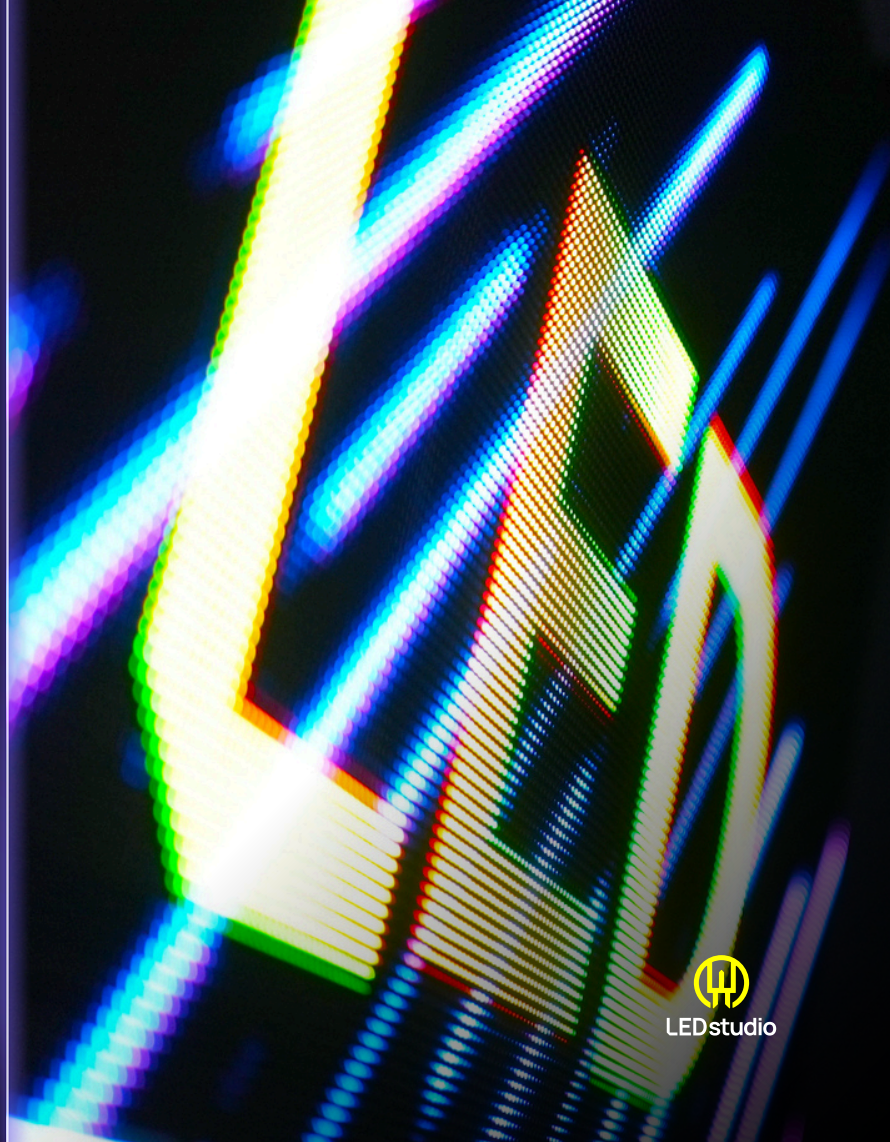

Immersive Showcase

From boardroom installations to large-scale digital canvases, see how LED transforms environments and elevates storytelling.

This is more than a demo centre. It's where ideas turn into experiences, and where the future of LED is written, one pixel at a time.
