

ADVANCED TRAUMA HEALING EQUIPPING SESSION

Bible-based Trauma Healing

**Trauma Healing
Institute**
God's Word Restoring Lives

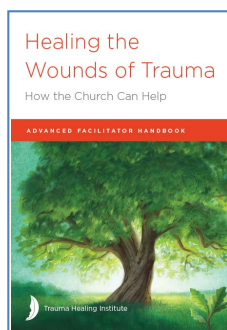

About the Session

This Advanced Equipping session continues the equipping process for facilitators in Bible-based Trauma Healing using the book *Healing the Wounds of Trauma: How the Church Can Help* and its associated program model.

The advanced session further develops the skills acquired at the initial session and during the practicum. Among topics included are:

- Review the 'core' lessons
- Practice facilitation skills to continue growing as an effective facilitator
- Cover some supplemental lessons
- Further explore art and other exercises
- Introduce contextualization of materials
- Discuss use of the new military version

The goal by the end of this session is to become a Healing Group Facilitator. Participants should be better able to solve issues arising in trauma healing groups as they carry out their ministries. They should understand the materials completely and clearly and be able to better lead groups in a participatory way. The evaluation during this Advanced equipping session consists of:

- Participant's self-awareness of impact on others and the ability to interact well in a group
- Participant's overall emotional well-being
- Another short test showing knowledge of the content
- More practice facilitating a group in a participatory way with feedback on strengths and suggestions for improvement.

Participants who have the necessary competencies are certified as Healing Group Facilitators at the end of this training session.

If a participant exhibits training skills, he/she may also become a Training Facilitator and be mentored to help conduct Initial Equippings with a more experienced facilitator.
